

SURA

Students Underwater Robotics Association

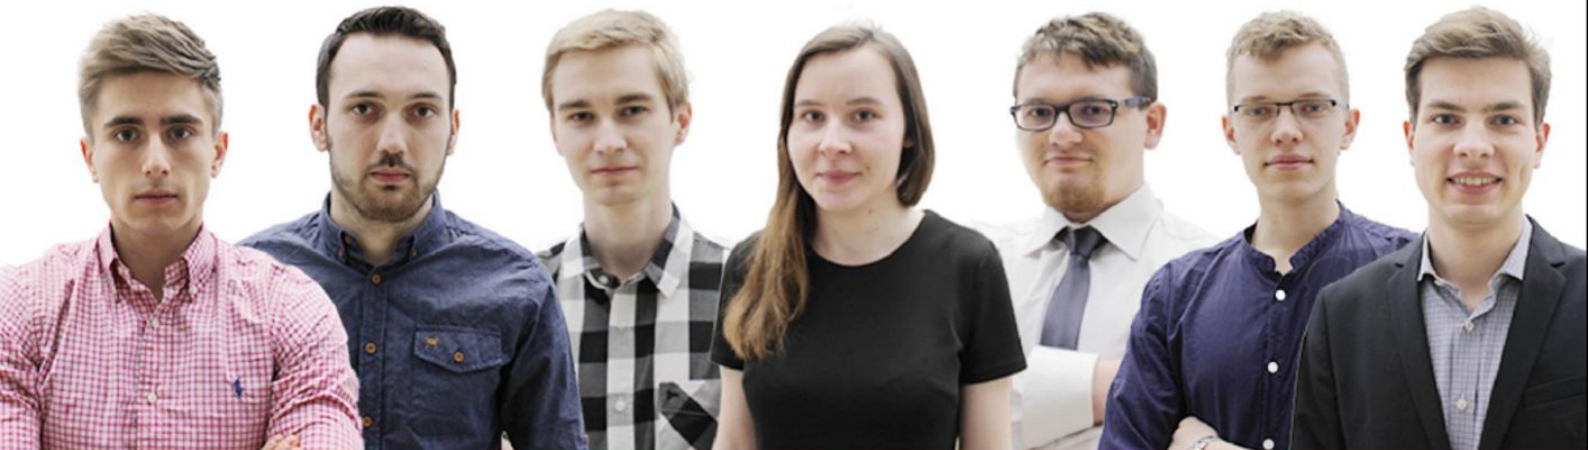

photo of AHTI

SCHOOL: WARSAW UNIVERSITY OF TECHNOLOGY
COUNTRY: POLAND
ROV NAME: AHTI
TOTAL COST: 3000\$
MATERIAL: Aluminum,
polycarbonate, ABS
DIMENSIONS: within sphere $\phi 580$
TOTAL WEIGHT: 15kg

members

Tomasz Bartkowiak Mechanical Engineer Radosław Ławrynowicz Electrical Engineer Piotr Kuciński Software Engineer Magdalena Malenda Software Engineer Paweł Lewczuk Mechanical Engineer Marek Głuchowski CEO Andrzej Daniluk CFO

additional info

Distance to the competition: 9000km
Safety features: Kort nozzles, leakage sensors, smooth edges
Special features: Six independent thrusters (five degrees of freedom), effector, two cameras on board
History: New company, first time on MATE
Range of college levels: 3rd/4th/5th year university students
Total student hours spent to design and built: each student 100h (700h total)
